Redhawk Wealth Advisors, Inc. (“Redhawk”) is an SEC-registered investment advisor with its principal place of business based in Edina, Minnesota. Redhawk began conducting business in 2008. Below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- Daniel Edward Hunt, CEO

Redhawk provides investment advice and portfolio management services to individuals, trusts, estates, charitable organizations, foundations, endowments, corporations, captive insurance companies (“CIC” or “CICs”), qualified retirement plans, or other businesses not listed above (collectively referred to herein as “Client” or “Clients”). Redhawk’s services include the review of Client investment objectives and goals, recommending investment products such as cash, model portfolios, stocks, mutual funds, exchange-traded-funds (“ETFs”), bonds, annuities, alternatives, and preparing a written Investment Policy Statement (“IPS”). Redhawk’s investment advice is tailored to meet the Clients’ needs and investment objectives. Clients may impose restrictions on investing in certain securities or types of securities (such as a product type, specific companies, specific sectors, etc.) by providing a signed and dated written notification, of which an e-mail is also an acceptable form of notification.

Redhawk provides investment advisory and other financial services through financial advisors for accounts opened with Redhawk. Redhawk provides discretionary and non-discretionary investment advisory services to its Clients through various managed account programs and wrap programs. Redhawk will assist Clients in determining the investments that are in the best interest of the Client. The financial advisor is compensated based on a percentage of assets and the account is assessed other brokerage and account transaction fees (except for wrap accounts). Redhawk and the financial advisor, as appropriate, will be responsible for the following:

- Perform due diligence in order to select the investments.
- Perform ongoing monitoring and replacement oversight of the investments.
- Provide a Client risk profile assessment.
- Provide research and analytics on investment product options, as needed.
- Recommend investments that are in the best interest of the Client based on:
 - Risk profile assessment
 - Age
 - Retirement date
 - Investible assets
 - Financial goals
- Prepare a customized IPS for the Client.
- Provide ADV Part 2A (Firm Brochure) and ADV Part 2A Appendix 1 (Wrap Fee Program Brochure).
- Obtain the investment advisory contract from the Client with the required IPS and investment vehicle selection information for each new account or change in investment.
- Perform Client best interest check on account documentation, IPS, and investment selections.

As of 12/31/2016, Redhawk discloses \$701,262,464 in total assets representing \$663,562,319 in Assets under Management (“AUM”) and \$37,700,145 in Assets under Administration (“AUA”).

AUM shall mean assets that are invested under either a Redhawk Unified Managed Account Agreement (or “RUMA”), a Wrap Agreement, a Discretionary Investment Advisory Agreement (or “OIP”), an ERISA 3(21) Investment Advisor Agreement, or an ERISA 3(38) Investment Management Agreement. AUA shall mean all other Client assets under advisement by an Investment Advisor Representative (“IAR”) affiliated with Redhawk.

Additional information regarding Redhawk’s advisory services to wealth management and retirement plan Clients are described below.

Wealth Management

As part of the financial planning process, the financial advisor conducts a personal discussion with the Client and completes a risk tolerance assessment to determine the Client's goals and objectives. The financial advisor then determines an appropriate portfolio or blend of portfolios that is in the best interest of the Client. Under this arrangement, the Client retains individual ownership of all securities.

Redhawk’s investment recommendations are not limited to any specific product or service offered by a broker dealer, registered investment advisors, or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities
- Mutual fund shares
- Exchange Traded Funds (“ETFs”)
- Unit Investment Trusts (“UITs”)
- Collective Investment Trust (“CITs”)
- United States governmental securities
- Structured products

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the Client's stated investment objectives, tolerance for risk, liquidity, and best interest. To ensure that the initial determination of an appropriate portfolio remains in the best interest of the Client and that the account continues to be managed in a manner consistent with the Client's financial circumstances, the financial advisor will:

1. Contact each participating Client, at least annually, to determine whether there have been any changes in the Client's financial situation or investment objectives, and whether the Client wishes to impose investment restrictions or modify existing restrictions.
2. Be available to consult with the Client.
3. Maintain Client suitability information in each Client's file.

Advisors have several choices for Client accounts and can utilize several investment platforms that are in the best interest of their Client including:

Custom Account – An account that is customized for the Client. Redhawk executes the trades based on direction from either the advisor or Client. ERISA Section 3(21) Investment Advisor and 3(38) Investment Management Services

For employer-sponsored retirement plans with participant-directed investments, Redhawk provides its advisory services as an investment advisor as defined under Section 3(21) and as an investment manager as defined under Section 3(38) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

When serving as an ERISA 3(21) investment advisor, the plan sponsor and Redhawk share fiduciary responsibility. The plan sponsor retains ultimate decision-making authority for the investments and may accept or reject the recommendations in accordance with the terms of a separate ERISA 3(21) Investment Advisor Agreement between Redhawk and the plan sponsor. Redhawk provides the following services to the plan sponsor:

- Screen investments and make recommendations.
- Monitor the investments and suggests replacement investments when appropriate.
- Provide a quarterly monitoring report.
- Assist the plan sponsor in developing an IPS.

When serving as an ERISA 3(38) investment manager, the plan sponsor is relieved of all fiduciary responsibility for the investment decisions made by Redhawk. Redhawk is a discretionary investment manager in accordance with the terms of a separate ERISA 3(38) Investment Management Agreement between Redhawk and the plan sponsor. Redhawk provides the following services to the plan sponsor:

- Select the investments.
- Monitor the investments and replace investments when appropriate.
- Provide a quarterly monitoring report.
- Develop a customized IPS.

Redhawk’s goal in identifying the plan’s investment options is to provide a range of options that will enable plan participants to invest according to varying risk tolerances, savings time horizons or other financial goals. The plan's investment options may consist of ETFs, CITs, mutual funds, model portfolios, or other similar investment funds. The investment funds from which Redhawk will select from will be those that are available on the plan recordkeeper’s investment platform.

Redhawk will prepare an IPS for the plan. The purpose of the IPS is to provide guidelines for making investment-related decisions in a prudent manner. It outlines the underlying philosophies and processes for the selection, evaluation, monitoring, and, if necessary, replacement of the investment options offered by the plan. Redhawk will perform on-going monitoring of the investment options within the plan. The ongoing monitoring of investments is a regular and disciplined process. Monitoring confirms that the criteria remain satisfied and that an investment option continues to be appropriate. The process of monitoring investment performance relative to specified guidelines will be consistently applied.

Redhawk will make available to participants, either through the provider’s recordkeeping platform, a stand-alone form, or a third party web-site, a risk tolerance questionnaire. The questionnaire’s sole purpose is to provide participants with general assistance in order to identify their risk tolerance and investment objectives and, based on this information, help determine which investment is most aligned with their risk tolerance/investment objectives.

GENERAL INFORMATION

Termination of the Advisory Relationship: Clients may terminate investment advisory services obtained from Redhawk, without penalty, upon written notice within five (5) business days after entering into the advisory agreement with Redhawk. The Client is responsible for any fees and charges incurred by the Client from third parties as a result of maintaining the account such as transaction fees for any securities transactions executed and account maintenance or custodial fees. Thereafter, a Client agreement may be canceled at any time, by either party, for any reason upon receipt of thirty (30) days written notice.

Mutual Fund and ETF Fees: All fees paid to Redhawk for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and ETFs to their shareholders. These fees and expenses are described in each fund’s prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a Client may pay an initial or deferred sales charge. A Client could invest in a mutual fund or ETF directly without Redhawk’s services. In that case, the Client would not receive the services provided by Redhawk which are designed, among other things, to assist the Client

in determining which mutual fund or ETF are most appropriate to each Client's financial condition and objectives. Accordingly, the Client should review both the fees charged by the funds, Redhawk's fees, and advisory fees to fully understand the total amount of fees to be paid by the Client and to thereby evaluate the advisory services being provided.

Additional Fees and Expenses: Clients are also responsible for the fees and expenses charged by custodians and imposed by broker-dealers, including, but not limited to, any transaction charges imposed by a broker-dealer with which an independent investment manager effects transactions for the Client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information. Redhawk pays for these fees for those Clients invested in one of the wrap accounts.

Grandfathering of Minimum Account Requirements: Pre-existing advisory Clients are subject to Redhawk's minimum account requirements and advisory fees in effect at the time the Client entered into the advisory relationship. Therefore, Redhawk's minimum account requirements will differ among Clients.

Advisory Fees in General: Clients should note that similar advisory services may be available from other investment advisors for similar or lower fees.

Limited Prepayment of Fees: Under no circumstances does Redhawk require or solicit payment of fees in excess of \$1,200 more than six months in advance of services rendered.

Limited Negotiability of Advisory Fees: Although Redhawk has established the aforementioned fee schedule(s), Redhawk retains the right to negotiate alternative fees on a Client-by-Client basis. Client facts, circumstances and needs are considered in determining the fee schedule. These include the complexity of the Client, assets to be placed under management, anticipated future additional assets; related accounts; portfolio style, account composition, reports, among other factors. The specific annual fee schedule is identified in an agreement between the financial advisor and each Client. Redhawk may group certain related Client accounts for the purposes of achieving the minimum account size requirements and determining the annualized fee. Discounts may be offered to family members and friends of associated persons of Redhawk.

Redhawk does not charge performance-based fees.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

Redhawk uses the following methods of analysis in formulating investment advice and/or managing Client assets.

Redhawk's Investment Committee ("RIC") meets on a weekly basis and operates under a formalized charter and set of policies and procedures outlined under the Redhawk Investment Provider Selection and Monitoring Methodology document. RIC is responsible for the selection, monitoring, and termination/replacement of investments. Redhawk makes available to Clients investments that have varied investment philosophies and strategies that cover fixed income, tactical managers, strategic allocation managers, and alternative investments encompassing a broad range of investment solutions.

Frequency: RIC is aware that the ongoing review and analysis of the investment provider and sub-advisor is just as important as the initial selection. Investment performance will be monitored on a weekly basis, and it is at Redhawk's discretion to take corrective action by either terminating or replacing an investment if deemed appropriate at any time. RIC intends to evaluate investment performance from a long-term perspective. RIC makes available to affiliated and non-affiliated advisors an advisory communication that summarizes the opinions of the RIC for each investment offered to Clients.

Selection Criteria: RIC will use the information submitted by the investment company as required under the Redhawk Investment Provider Due Diligence Request for Information ("RFI") document. RIC will review the information and make a decision using various criteria.

Monitoring: The ongoing monitoring of investments is a regular and disciplined process. Monitoring confirms that the criteria remain satisfied and that an investment continues to be appropriate. The process of monitoring investment performance relative to specified guidelines will be consistently applied. Frequent change of investments is neither expected nor desired. Monitoring will utilize some of the same selection criteria used in the selection analysis. Unusual, notable, or extraordinary events will be communicated to the financial advisor and Client on a timely basis. Examples of such events include investment manager or team departure, violation of investment guidelines, material litigation against the firm, or material changes in firm ownership structure and announcements thereof.

RIC has established performance objectives for each investment. Investment manager performance will be evaluated in terms of an appropriate market index (e.g., the S&P 500 Index for the large-cap domestic equity manager), the relevant benchmark, or peer group (e.g., the large-cap growth mutual fund universe for a large-cap growth mutual fund). RIC will exercise discretion and reasonable judgment in the monitoring process. In fulfilling RIC's ongoing duty, certain indicators have been selected to assist in determining whether a particular investment remains a suitable investment for the plan.

Replacement/Termination: RIC will give consideration to either replacing or terminating an investment if one or several of the following conditions occur. Each month, the investments are scored by reviewing a number of key criteria for each portfolio and any company related activities. Enclosed below is a summary of our monitoring criteria.

The levels consist of:

1. **Approved** - The investment has been approved by the RIC without any investment restrictions other than a minimum account balance and suitability.
2. **Watch List** - The investment has been placed on the watch list for any one of the following criteria listed below:
 - a. The investment significantly underperforms without a justifiable rationale.
 - b. The investment fails to achieve performance and risk objectives.
 - c. The investment fails to maintain a consistent investment style.
 - d. The investment fails to satisfy a minimum score for a certain period of time.

- e. There is a material change in the investment company, investment philosophy, and/or personnel.
 - f. Any legal, Securities and Exchange Commission (SEC), and/or other regulatory agency proceedings affecting the investment company's organization.
3. **Restricted List** - The investment can be placed on the Restricted List for any one of the criteria listed under the Watch List due to the severity of the issue. In addition, the investment can also be placed on the Restricted List for any of the following:
- a. The investment is no longer offered by the investment provider.
 - b. The RIC may also remove any investment at any time and for whatever reason it deems appropriate, including a determination that the investment is no longer suitable for Clients.

Once an investment is placed on the Restricted List, the RIC will give consideration to either replacing, terminating, or restricting the investment. The following courses of action are available.

- **Severity 1** - Keep the investment and limit the amount of new assets that can be placed in the investment. This may have a temporary timeframe or a permanent timeframe.
- **Severity 2** - Keep the investment and freeze the assets with the investment and do not allow any new assets to be invested in the investment. This may have a temporary timeframe or a permanent timeframe.
- **Severity 3** – Terminate the investment and replace with an investment that is similar to the terminated investment. Map all of the assets to the replacement investment.

INVESTMENT STRATEGIES

Redhawk has agreements in place with sub-advisors that have different investment philosophies in order to offer a full array of model portfolios to Clients. The sub-advisor strategies need to be appropriate to the needs of the Client and consistent with the Client's investment objectives, risk tolerance, and time horizons, among other considerations. The sub-advisors cover the following investment strategies:

Fixed Income Management

Fixed income investments generally pay a return on a fixed schedule, though the amount of the payments can vary. Individual bonds may be the best known type of fixed income security, but the category also includes bond funds, ETFs, CDs, and money market funds.

Tactical Asset Allocation Management

An active management portfolio strategy that rebalances the percentage of assets held in various categories in order to take advantage of market pricing anomalies or strong market sectors. This strategy allows portfolio managers to create extra value by taking advantage of certain situations in the marketplace. It is an active strategy since sub-advisors return to the portfolio's original strategic asset mix when desired short-term profits are achieved. The sub-advisor may use fundamental, technical, and/or macroeconomic analysis in determining when and how to change the investments in the portfolio.

Strategic Asset Allocation Management

A passive portfolio strategy that involves periodically rebalancing the portfolio in order to maintain a long-term goal for asset allocation. At the inception of the portfolio, a "base policy mix" is established based on expected returns. Because the value of assets can change given market conditions, the portfolio constantly needs to be re-adjusted to meet the policy. Asset allocation is an investment strategy that attempts to balance risk versus reward by adjusting the percentage of each asset in an investment portfolio according to the investor's risk tolerance, goals and investment time frame.

Alternative Investments

An investment that is not one of the three traditional asset types (stocks, bonds, and cash). Alternative investments include hedge funds, managed futures, real estate, structured products, commodities, and derivatives contracts. Alternative investments typically have a low correlation with those of standard asset classes.

RISKS

The strategies and investments may have unique and significant tax implications. Redhawk strongly recommends that Clients continuously consult with a tax professional prior to and throughout the investing of Client assets. Investing in securities involves risk of loss that Clients should be prepared to bear. Although investments are selected in a manner consistent with Client's risk tolerances, there can be no guarantee that the investments will be successful. Clients should be prepared to bear the risk of loss.

All investments involve the risk of loss, including (among other things) loss of principal, a reduction in earnings (including interest, dividends, and other distributions), and the loss of future earnings. These risks include market risk, interest rate risk, issuer risk, and general economic risk. Item 15 - Custody

Any financial advisor having custody or access to customer funds or securities must comply with certain rules and regulations designed to protect the Clients' assets. Rule 206(4)-2 of the Investment Advisers Act of 1940 details strict requirements governing investment advisors that have "custody" over Client securities or funds. Redhawk meets the definition of having custody due to the following circumstances:

- Redhawk directly debits fees from Client accounts

Redhawk does not have physical custody of any Client funds and/or securities. Client funds and securities will be held with a bank, broker dealer, or other independent qualified custodian. Clients will receive account statements from the independent, qualified custodian holding their funds at least quarterly. The account statement from Client's custodian will indicate the amount of advisory fees deducted from account(s) each billing cycle. Clients should carefully review statements received from the custodian. In addition to the statements that Clients receive directly from their custodian, Redhawk also sends account statements directly to Clients on a quarterly basis.

Redhawk urges Clients to carefully compare the information provided on these statements to ensure that all account transactions, holdings and values are correct and current.

Item 16 - Investment Discretion

Clients may hire Redhawk to provide discretionary asset management services, in which case Redhawk places trades in a Client's account without contacting the Client prior to each trade to obtain the Client's permission.

Redhawk's discretionary authority includes the ability to do the following without contacting the Client to:

- Determine the security to buy or sell; and/or
- Determine the amount of the security to buy or sell.

Clients give Redhawk discretionary authority when they sign a discretionary agreement with Redhawk, and may limit this authority by giving Redhawk written instructions. Clients may also change/amend such limitations by once again providing Redhawk with written instructions.

Redhawk requires written authority to determine which securities and the amounts of securities that are bought or sold in a Client's account. Clients give Redhawk discretionary investment authority when they sign a discretionary agreement with Redhawk, and may limit this authority by giving Redhawk written instructions. Clients may also change/amend such limitations by once again providing Redhawk with written instructions.
