

Form CRS – Customer Relationship Summary

February 25, 2025

Item 1: Introduction

Our firm, Redhawk Wealth Advisors, Inc., is an investment advisor registered with the Securities and Exchange Commission. We feel that it is important for you to understand how advisory and brokerage services and fees differ to determine which type of account is right for you. There are free and simple tools available to research firms and financial professionals at <http://www.investor.gov/CRS>, which also provides educational materials about investment advisors, broker-dealers, and investing.

Item 2: Relationship and Services

What investment services and advice can you provide me?

We are a registered investment advisor that offers investment advisory services to clients. Our advisory services include Investment Management and Financial Planning. We customize all services to your individual needs by determining your specific goals, objectives, risk tolerance, time horizon, investment restrictions, and other factors that affect the financial advice you receive. Based on what we learn, we will recommend a portfolio of investments that we monitor to ensure compliance with your stated goals and objectives. We generally manage accounts on a discretionary basis. After you sign an agreement with our firm, we can buy and sell investments in your account without asking you in advance. If deemed appropriate for you, our Firm will recommend utilizing an independent Third-Party Money Manager (“TPMM”) or Sub Advisor to aid in the implementation of investment strategies for the client’s portfolio. Redhawk may enter into agreements with unaffiliated registered investment advisors (hereafter referred to as an “Independent RIA”) whereby Redhawk oversees and manages on a discretionary basis some or all of the Independent RIA’s client assets according to the investment strategy chosen by the client. For clients who enter into agreements with Independent RIA in a joint capacity with Redhawk, both advisors oversee and manage, on a discretionary basis, some or all of the client assets according to the investment management agreement(s). Any limitations will be described in the signed advisory agreement. We will have discretion until the advisory agreement is terminated in writing by you or our firm. As a condition for starting and maintaining an investment advisory relationship, we generally require a minimum portfolio size of \$1,000. We, in our sole discretion, may waive our stated account minimums. Financial Planning is offered as a separate fee. We do not monitor your investments for the Financial Planning service.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

1. Given my financial situation, should I choose an investment advisory service? Why or why not?
2. How will you choose investments to recommend for me?
3. What is your relevant experience, including your licenses, education, and other qualifications? What do those qualifications mean?

For more information, please refer to our Firm’s ADV Part 2A Brochure – Items 4, 7, 13 and 16.

Item 3: Fees, Cost, Conflicts and Standard Conduct

What fees will I pay?

For investment advisory services, you will be charged an ongoing monthly fee based on the average daily value of the investments in your account. Our Investment Management fee schedule is standard for all clients, and ranges from 0.50% to 1.75% annually depending on the value of the investments in your account. In addition to the Investment Management fees, a monthly technology fee will be charged to each account. The technology fee will be determined annually based on the account balance determined as follows: (i) If the account balance is \$10,000 or more, a \$5,00 per account fee will be charged monthly; (ii) If the account balance is less than \$10,000, a \$2,50 per account fee will be charged monthly. For TPMM, fees and billing methods are outlined in each respective TPMM’s Brochure and Advisory Contract. You pay an ongoing fee directly to the TPMM based upon a percentage of your assets under management with respect to each TPMM. For clients who enter into an agreement for sub advisor services with an Independent RIA in a joint capacity with Redhawk, both advisors oversee and manage, on a discretionary basis, some or all of the client assets according to the investment management agreement(s). Redhawk will deduct the advisory fees and will remit the Independent RIA’s portion of the total advisory fee. In these situations, the client remains a client of the Independent RIA and Redhawk Wealth Advisors. The more assets you have in your advisory account, the more you will pay us. We therefore have an incentive to increase the assets in your advisory account to increase our fees. Your custodian will charge transaction costs, custodial fees, redemption fees, retirement plan and administrative fees, or commissions. The mutual funds and/or ETFs held in your

advisory account(s) will charge management fees and other expenses. Our firm's fees will be automatically deducted from your advisory account, monthly in arrears, which will reduce the value of your advisory account. You will pay fees and costs whether you make or lose money on your investments. Our Financial Planning service fee ranges from \$250 - \$2,500 and is based on the complexity of the plan and the number of hours it will take to develop and maintain the plan. This fee will be disclosed in the financial planning agreement. Our Firm utilizes promoters and pays compensation to independent third parties for the referral of clients to our Firm. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

How do your financial professionals make money?

Our financial professionals are compensated based on a percentage of the amount of assets under management that they service, which includes the time and complexity required to meet your needs; the investment solutions used; or revenue the firm earns from financial professional's advisory services or recommendations. They also may receive additional compensation from outside business activities, such as sales commissions for selling insurance, fees for providing accounting services, or fees for serving in a consulting capacity.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

1. Help me understand how these fees and costs may affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs and how much will be invested for me?

For more information on our fees and how we calculate fees, please refer to Item 5 of our Part 2A Firm Brochure, which is available online at <https://adviserinfo.sec.gov/firm/summary/146616>.
